If you would like to volunteer, please call the City at 336-431-2841.

WHEN DO YOU NEED A PERMIT

If you are considering building a new home or garage, or adding an accessory structure, it is important that you get the appropriate permits. A permit insures that your construction project complies with zoning and stormwater regulations.

Your first stop is City Hall. City staff will sit down with you to discuss your construction project and lay out what you need to get started. Beginning with our development review checklist, we will discuss the steps you need to take and determine whether or not you need a permit.

The cost of permits range from \$0 to more than \$300.00 depending on the complexity of the project and the level of technical review required for approval.

GENERAL  
HARDEE'S  
RETREAT

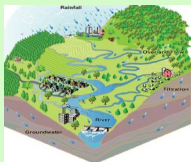

152<sup>ND</sup> ANNIVERSARY

The final surrender of Confederate troops reportedly took place at the site of Braxton Craven School. At that time Gen. William Hardee was camped at Trinity College with 20,000 soldiers and 7,000 horses spread over six miles along the road leading to Archdale.

General Hardee was in charge of the Department of South Carolina, Georgia, and Florida and had slowed General William T. Sherman's March to the Sea by delaying Sherman at Savanna. Hardee later joined Gen. Joseph Johnston at the Battle of Bentonville and surrendered at Trinity when he learned that Johnston was negotiating surrender at Bennett Place in Durham.

WHAT IS A WATERSHED?

A watershed is an area of land that drains to a specific site. Everything that happens upstream affects water quality downstream. Keep our waters clean by washing your car on a grassy surface, use biodegradable soaps, or take your car to the car wash! To learn more about impacts on water quality: [www.stormwatersmart.org](http://www.stormwatersmart.org).

ATTENTION ALL PROPERTY OWNERS CONNECTED TO CITY SEWER DO NOT DUMP COOKING OILS OR GREASE DOWN YOUR SINK DRAIN OR TOILET!

Fats, Oils and Grease (FOG) Ordinance

Background:

Sanitary sewer overflows are a serious environmental problem and are a violation of the Clean Water Act. A large percentage of sewer overflows and backups are caused by misuse of the collection system by the public. **Fats, Oils and Grease (FOG)** can solidify in the pipe and cause stoppages. The Federal Government through the State of North Carolina is requiring utilities to meet minimum operation standards through a permit process. The Collection System Permit requires a FOG Ordinance to address this problem. Operating at or above this minimum standard provides some protection from fines and liability for property damage.

Most open burning illegal in NC

North Carolina law prohibits most open burning because the smoke from outdoor fires can cause serious health problems and pollute the air. It is illegal to burn trash and other non-vegetative materials. However, homeowners can burn yard trimmings - except for stumps and logs over 6 inches in diameter - as long as it doesn't cause a public nuisance. Other allowable burning includes fireplaces, campfires, outdoor barbecues and bonfires for festive occasions. Landowners may be allowed to burn vegetation to clear land or clean up storm debris, but they should check first with the Division of Air Quality in Winston-Salem.
